Subject: Advanced Web Technology (01CT1625)	Aim: Create a react application to perform CRUD operations with Firebase.	
Task :- 01	Date:-	Enrollment No:- 92200133030

Objective:- Create a react application to perform CRUD operations with Firebase.

Code :-

firebase_client :-

App.jsx

```
import { useState, useEffect } from 'react';
import axios from 'axios';
import AddBooks from './components/AddBooks';
import BooksTable from './components/BooksTable';
import './App.css';

const API_URL = 'http://localhost:3000/api/books';

const App = () => {
  const [Books, setBooks] = useState([]);
  const [editingbook, setEditingbook] = useState(null);
  const [loading, setLoading] = useState(false);
  const [error, setError] = useState('');

  useEffect(() => {
    fetchBooks();
  }, []);

  const fetchBooks = async () => {
    setLoading(true);
    try {
      const response = await axios.get(API_URL);
      console.log(response.data);
      setBooks(response.data);
      setError('');
    } catch (error) {
      console.error('Error fetching Books:', error);
      setError('Failed to fetch Books. Try again later.');
```

 Marwadi University Marwadi Chandarana Group	NAAC A+	Marwadi University Faculty of Technology Department of Information and Communication Technology

Task :- 01	Date:-	Enrollment No:- 92200133030

```

    }
    fetchBooks();
  } catch (error) {
    console.error('Error adding/updating book:', error);
    setError('Failed to save book.');
```

```

  };

const deletebook = async (id) => {
  if (!window.confirm('Are you sure you want to delete this book?')) return;

  try {
    if (!id) {
      throw new Error('book ID is required');
    }
    const response = await axios.delete(`${API_URL}/${id}`);
    if (response.data) {
      setBooks((prevBooks) => prevBooks.filter((book) => book.id !== id));
      setError('');
    }
  } catch (error) {
    console.error('Error deleting book:', error);
    const errorMessage = error.response?.data?.message || 'Failed to delete book. Please check if
the ID is valid.';
    setError(errorMessage);
  }
};

return (
  <div className="container">
    <h1>Book Management System</h1>
